Here and there some one would lift from the face of the one of the dead a handkerchief or piece of garment that had been placed over the features by some friend.

Many of the girls rolled up their sleeves, and knelt at the side of the stricken men and bathed their wounds until the services of a surgeon could be secured. The women on the train did everything possible that their limited facilities would per-

tears followed laughter, and college yells, faded into mournful expressions of sincere and heartfelt sympathy. The incoming of the Bloomington crowd broke into sad and silent groups, that huddled at street corners, visited the morgues and hospitals, searching for relatives, and friends, or boarded the trains of street cars that commenced carrying thousands to the scene of the wreck.

The injured at the hospitals are being cared for. Several are fatally hurt. Surgeons have already amputated several limbs and are still hard occupied over the most dangerously hurt.

Dowie Has an Audience of Two Hundred. They Were All Zionites.

New York, Oct. 31.—Only members of Dowies "Restoration Host" were allowed inside of Madison Square Garden, at the morning meeting today. Dowie, it was learned, spoke to his followers on "Watch, Work and Pray." His address consisted chiefly of exhortations to his people to do their best to get as many converts as possible for the baptism tomorrow. There were only about two hundred of the host present. A great many went away last night and yesterday, and more will leave for Zion City today.

MR. RUSSELL REFUSES TO

Stand and Accede to the Demands of an Alleged Blackmailer.

When Sought for an Interview He Referred the Interrogator to His Attorney Who Made Clear and Decisive Statements Fully Exonerating Mr. Russell From Blame.

This morning, a newspaper wire was received, asking for a "rush photo of W. L. Russell, millionaire oil magnate." This telegram was signed, "American"

Mr. Russell being called upon, laughed about the matter and said he supposed that this was in connection with a blackmailing scheme that had been attempted upon him during the last year; that he was too busily engaged this morning to go into any details, but his attorney was entirely familiar with the whole proceeding, and was at liberty to tell the newspapers about it if he desired to.

Mr. Halfhill, of the firm of Ride-nour & Halfhill, was called upon, and said the story was too long for details, but that a certain woman, during the last year and a half, had made several attempts to extort money from Mr. Russell, claiming everything from a breach of promise of marriage to actual marriage.

"These claims have been discarded by different firms of lawyers, but it is always easy to lodge a claim with a lawyer, for a lawyer until he can investigate is as liable to be fooled as anybody else. Of course, no person can prevent a suit being brought against him in any court of the land, and all he can do is to stand on his rights and defend himself. This, Mr. Russell has done from the first and will continue to do to the very last."

"It is a matter of common knowl-

edge in the world of human experience that a man who accumulates wealth, or is reputed to have accumulated wealth, is frequently beset by claims of this nature, and too frequently men do not have the nerve to refuse to be bled, because of notoriety."

"I am glad to say that the claim is absolutely without any foundation and hence Mr. Russell does not fear either newspaper publicity or trial in court. We know from a thorough knowledge of the facts that the alleged claims have no merit, and are but a wicked and malicious attempt to extort money."

"Mr. Russell's esteemed wife is entirely familiar with this wicked conspiracy, and has urged me repeatedly to counsel Mr. Russell that he never give up a dollar, and to fight the claim to the very last."

"I was personally told months ago by way of a threat that if this alleged claim was not settled it would be given to the Associated Press; and on conveying this information to Mr. Russell, he instructed me to say to the parties that they might make any publication that they desire concerning this claim or concerning him, but that he absolutely refused to give up one dollar of extortion money to prevent it. I conveyed this information as instructed, and the newspaper wire asking for Mr. Russell's photograph, may have something to do with the further attempt to extort money."

DO YOU PAY TAXES?

Do If You Own Property. You
Do If You Pay Rent.

Mark Hanna, Boss Cox and a Republican Legislature Framed the new Tax Raising, Franchise Grabbing, Cincinnati-Columbus Rule Municipal Code.

Here Is What It Did for You--Here Is What It Did for
Your Neighbor--Go to the Court House and See
What Your Taxes Are Before You Go to
the Polls to Vote.

No one, not even Mark Hanna, denies or attempts to deny that the new municipal code was framed and rushed through a republican legislature by Mark Hanna, George B. Cox, and the franchise grabbing corporation of the state in which Hanna, Herrick and Cox are heavy stockholders. The wishes of the people, whose property was involved and who must pay the heavy taxes that are forced upon them by reason of the increased expenses of municipal government under the provisions of the code, were not consulted as the democratic party pledges itself to do in such matters, and the figures in the county auditor's office show the results.

Under the provisions of this infamous Hanna-Cox code, with its high salaries for officials whom the city must have, but does not need, the tax payers of Lima are required to pay from \$15,000 to \$20,000 per year in taxes, more than they were ever compelled to pay under the old system.

The owner of any property, however small in area or valuation, must pay his or her share of this increased expense. The following are the names of a few of the local tax payers and the figures will show the increase in their city taxes since the new code went into effect. Remember that only a few tax payers whose names have been selected at random, without regard to their wealth, location or politics. Go to the court house and see what your own taxes are and see how they have increased. Then you can cast your vote on the third day of November, and ask your republican neighbor to investigate before he casts his vote with a party whose principal object is to create new high salaried offices to take care of their pets and have you pay the expenses in increased taxes. The following figures show the amount of taxes paid by some of your neighbors in the December semi-annual tax collection of 1902 and also shows what they will be required to pay at the second semi-annual collection of this year.

REGRETTED THE DECISION

Which Put Twenty Miles of Yukon
Railroad Under the American
Flag.

London, Oct. 31.—Chairman MacRae at a meeting yesterday of the stockholders of the White Pass and Yukon railroad alluded to the Alaska boundary award. He said that while he regretted the decision which placed twenty miles of their railroad under the jurisdiction of the American flag it was in reality more a matter of sentiment than business. The reciprocal bonding arrangements between Canada and the U. S. would continue. Both countries would suffer equally and enormously by a dis-

RECORDS ARE SAFE.

What Took Place in Grand Jury Room
Court Considers Sacred.

Hot Tilt Between Attorney for Beavers and District Attorney Results in Exclusion of All
Testimony Concerning Witnesses, and
Refusal to Produce Records.

New York, Oct. 31.—After many futile attempts to secure her attendance, Miss Amy Wren was the first witness called in the hearing before U. S. Commissioner Hitchcock, of Geo. W. Beavers, the former head of the salary and allowance division of the postal department who is charged with having received money from the Brandt Bent Co., of Watertown, Wis., for which he gave the company a contract for the automatic cashiers, manufactured by it. Miss Wren is the official stenographer of U. S. District Attorney Youngs, of Brooklyn, and as such took the minutes of the federal grand jury in Brooklyn last July which found the indictment against Beavers.

Miss Wren said she had been present in the grand jury room in Brooklyn in July last, when the Beavers' indictment was found.

"Who attended before the body as witness?" asked Mr. Steur, counsel for Beavers.

This question brought an immediate objection from U. S. District Attorney Burnett, who protested that the grand jury proceedings were sacred in the eyes of the law and the witness

had taken an oath not to reveal them. The objection was sustained.

Mr. Steur continued to question Miss Wren concerning what transpired in the grand jury room at the time the indictments against Beavers was returned and Gen. Burnett, continued to object. Finally the general asked the commissioner to instruct the witness that she need not answer any questions concerning what occurred in the room. This the commissioner did despite Mr. Steur's objections. Mr. Steur said he desired to show that no evidence was adduced before the grand jury upon which a legal indictment could have been found.

General Burnett called the attention of the commissioner to the fact that the indictment had already been accepted as prima facie evidence.

U. S. District Attorney Youngs was sworn and asked if he would produce the records of the July grand jury and such papers and documents offered for its consideration.

Gen. Burnett objected saying the records were the property of the government and that Col. Young could not produce them. The objection was sustained and the witness excused.

ELEVATOR DESTROYED

By Fire. One Man Burned to
Death and Five Seriously
Injured.

Philadelphia, Pa., Oct. 31.—One man was burned to death and five others severely injured during a fire which has totally destroyed the large grain elevator of the Baltimore and Ohio railroad company, and the four-story flour mill of W. S. Woodward & Co. Harry McWilliams, who was at work on the roof of the Woodward building, was burned to death and John B. Lyons, Dan Murphy, Gustave Grinow, John Burns and John Myers, were painfully injured by falling walls. The burned properties were located on the banks of the Schuylkill river between Race and Vine streets. No official estimate of the loss has been made, but it will probably reach \$200,000. The B. & O. elevator with 500,000 bushels of grain stored there in, is a total loss. The Woodward building is also a total wreck.

BIG BOND PURCHASE.

New York, Oct. 31.—Kuhn, Loeb & Co. have purchased \$10,000,000 Long Island R. R. Co. 40 year refunding mortgage 4 per cent. gold bonds, guaranteed by the Penna. R. R. Co. and \$10,000,000 Philadelphia, Baltimore & Washington R. R. Co. 40 year first mortgage 4 per cent. gold bonds. The \$10,000,000 of Long Island securities are part of an issue of \$45,000,000 of three bonds, the remainder of which is reserved to retire the unified bonds of the system. The \$10,000,000 Philadelphia, Baltimore & Washington bonds, are part of an issue of \$30,000,000.

600 first mortgage 4 per cent. bonds, secured on the entire railroad property of Philadelphia, Baltimore and Washington. The entire bonded debt of this road has been \$12,430,000 in the shape of simple obligations. The property therefore is not encumbered. The proceeds of the Long Island bonds will be used in financing and paying for extensive improvements.

WILL FIX TRIAL DATE.

Washington, Oct. 31.—It was arranged today that counsel appear in the district criminal court Monday and fix the date for beginning the trial of August W. Machen, former head of the free delivery postal service, Samuel A. and Diller B. Groff and Mr. and Mrs. Lorenz of Toledo, Ohio, for alleged conspiracy in the postal contracts. The hearing of the motion of the defendants for a mandamus to permit them to inspect various records and documents in the possession of a postoffice department was deferred till next Friday.

OFFICIAL OF STEEL TRUST

Makes a Statement of the Company's Policy. Will Be No Price Cut.

New York, Oct. 31.—The following statement has been made by an official of the U. S. Steel corporation, outlining the company's policy as to prices for products and wages of employees:

"There will be no cut in prices. Rates will be maintained. As for the matter of wages that has not been considered save in an informal way. At any rate no changes of this kind are likely before the new year. The matters now under discussion by the heads of the subsidiary companies are almost altogether of a routine character, though considerable thought is being given to economy of operations."

Ambitious Boy.

"I heard you give your readin' last night," said the little boy. "I wish I could read like you." "I am delighted to hear you say so," replied the eminent educationist. "Yes, sir, I wish that when I came to the hard words, I could just chew 'em up like you do, 'stead of havin' to pronounce 'em." —San Antonio Express.

EUCALYPTUS TREES ARE A BENEFICENCE.

Great Forests of Them Being Planted on Every
Continent. Good Fuel and Very Helpful
in Purifying the Air.

Foresters and publicists have known for years the value of the eucalyptus tree. Estimating the millions of cords that are being burned annually, they figure that it will not be many generations till wood will be as scarce everywhere as it is in parts of the great prairies, where they have to use young saplings two or three inches through to build their homes with, says the Chicago Chronicle.

The gum trees are equally well known as eucalyptus, or the eucalypts. They are hard woods of remarkable rapid growth and peculiar qualities. Great forests of these trees are being planted on every continent and especially on this continent. This important step has been taken largely as a result of the work of Baron Ferdinand von Mueller, government botanist of Victoria, Australia, who has prophesied that "eucalypts are destined to play a prominent part for all time to come in the sylvan culture of vast tracts of the globe."

When the trees are five to seven years old, groves of blue gum or manna gum may be cut to the ground for fuel and they may be cut every six or eight years thereafter. The yield from each cutting is commonly from fifty to seventy-five cords of four-foot wood per acre.

One seventeen-acre grove between Los Angeles and Compton set in 1880 and cut for the third time in June, 1900, produced 1,360 cords, an average of eighty cords of four-foot wood per acre.

In California, the leaves as well as the wood are utilized for fuel purposes.

If a man wears it, it is a nightshirt, but the garment the women wear for the same purpose is a "robe de nuit." We don't know enough about them to know if that is spelled right.

A man will build a flying machine, and put such faith in it that he will ride in it. This flying machine faith is the same kind, by the way, that a man demands every wife should have in her husband.

A Los Angeles company is making for marble bricks composed of blue gum, leaves and twigs mixed with crude oil and the product is reported to be an excellent fuel for domestic use. The entire tree is thus utilized, according to a statement of V. E. Chino, in the Scientific American. The phenomenally rapid growth of these trees has been demonstrated by the groves of Ellwood Cooper, near Santa Barbara, Cal., where the gums planted twenty-five years ago, are as large as oaks whose rings show them to be 300 years old.

The uses made of eucalyptus timber are remarkably diverse. It enters into the construction of buildings, ships, bridges, railroads, agricultural implements, furniture, barrels and a great variety of minor articles.

In Germany eucalyptus oil is regarded as an excellent remedy for consumption.

It is generally supposed that gum trees have an effect in benefiting the atmosphere in the region of their growth. The reasons are: First, their great capacity for absorbing moisture from the soil and thus reducing the quantity of stagnant water in the ground at their roots; second, their corresponding power of giving off fresh from their foliage, the water thus taken up; third, the exhalation from their leaves and other parts of volatile oils, which affect the climate not only directly, but by changing the oxygen of the atmosphere to ozone; fourth, the purification of germ-infested matter by the foliage dropped upon the ground.

We suppose there are women in heaven who have been there five hundred years who are still wondering why their husbands don't come, half suspecting that some woman is detaining them.

When a woman spends a particularly long time on her knees, in saying her prayers at night, her husband may know he has behaved worse than usual that day.

GETTING

Ready for the Season of Basket Ball.

Lima High Has Good Material and Will Play a Practice Game Tonight.

The basket ball game is in the air, and the first real contest of the season will take place at the Y. M. C. A. tonight, when the high school team will test its strength against a picked five from among the best players who attend the gym. Lima high has a score to settle with Piqua this year, and the sooner the boys get in trim for it, the better. Last year, Piqua defeated Lima two games, and played the season through without a defeat, holding the championship for high schools in the state against all comers. Lima was able to give them the hardest tussle, both the game at Piqua and at home, being so close as to keep the result in doubt up to the last minute. There will be no admission charged to the game tonight.

The man on the stage who does the trick of escaping from firmly tied ropes, submits to the bonds with a smile. He knows he can get out of the ropes that are being knotted. Put the same men in the woods and let Indian captives bind him to a tree for torture and he would struggle to the last against the bonds.

When the stomach is diseased there are bonds being woven every hour about the organs dependent on the stomach—heart, lungs, liver, kidneys, etc. The folly of mankind is to passively submit to the fastening of these bonds with no effort to escape until the pain they cause becomes fear.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It cures diseases of heart, liver, lungs, kidneys and other organs, when these diseases, as is often the case, have their origin in the diseased stomach.

For a long time I was suffering and was hardly able to get about," writes Mr. Andrew J. Jennings, of Thomas, Truckee Co., W. Va., B. S. S. "I was bothered with kidney trouble and my whole system was out of order; had no appetite. A friend of mine told me to try Dr. Pierce's Golden Medical Discovery. I did so and the first bottle restored my appetite. I took six bottles of 'Golden Medical Discovery' and some of the 'Pleasant Pellets' and feel like a new person."

Dr. Pierce's Pleasant Pellets cleanse the clogged system from impurities.

A. L. CONRAD.

Of Bluffton, Democratic Candidate For County Commissioner.

Alexander L. Conrad, democratic candidate for commissioner of Allen county, was born in the village of Beaverdam, Ohio, Dec. 23 1860. At the age of six years, he moved with his parents to Bluffton, where he now resides. After attaining his majority, he engaged in the occupation of farming, which he successfully prosecuted for a period of five years.

He then abandoned the tilling of the soil, and entered the employ of Mr. Lucius J. Suddall, as foreman of a stone quarry. By his genial nature, pleasant bearing, and honesty of purpose, he so won the confidence and esteem of both employer and employees, that he acted in this capacity for nine years. A laboring man himself, he is in perfect sympathy and harmony with those who must "earn their bread by the sweat of their brow."

In the spring of 1896, Mr. Conrad was elected to the office of marshal and street commissioner. During his seven years of service he consistently executed the duties of police, and made many improvements on the public highway. Faithful to his trust, he is said to have made a "hand" while overseeing his men.

Mr. Conrad has always taken an active interest in politics, and has never failed to cast his ballot at any election. Believing that it is the duty of every voter to exercise the right of suffrage, he is zealous and influential in inducing the indifferent to come to the polls.

Mr. Conrad believes that in letting the contract for any public work the same should be advertised according to law, and he work open to all, that any who desire to bid may have the chance.

He is a good citizen, an excellent neighbor, a capable official, and a man with the courage of his convictions.

If elected to the important office to which he aspires, Mr. Conrad will reflect credit upon the party that has nominated him, will retain the confidence of those who espouse his cause, and will honor the citizenship of the county which he represents.

Confide in a Woman

How Women Act While Consulting a Male Physician.

A woman is sick; some disease peculiar to her sex is fast developing in her system. She goes to her family physician and tells him a story, but not the whole story. She holds something back, loses her head, becomes agitated, forgets what she wants to say, and finally conceals what she ought to have told, and thus completely mystifies the doctor. Is it any wonder, therefore, that the doctor fails to cure the disease? Still, we cannot blame the woman, for it is very embarrassing to detail some of the symptoms of her suffering, even to her family physician. It was for this reason that years ago Mrs. Lydia E. Pinkham determined to step in and help her sex. Having had considerable experience in treating female ills with her **Vegetable Compound**, she encouraged the women of America to write to her for advice in regard to their complaints, and, being a woman, it was easy for her ailing sisters to pour into her ears every detail of their suffering. In this way

Mrs. Pinkham, in Lynn, Mass.,

was able to do for them what the physicians were unable to do, simply because she had the proper information to work upon, and from the little group of women who sought her advice years ago, a great army of her fellow beings are to-day constantly applying for advice and relief, and during the last year many, many thousands every month have written and received valuable advice and help.

Nowhere except at Lydia E. Pinkham's laboratory in Lynn is there such an amount of information at hand to assist in the treatment of all kinds of female ills, from the simplest local irritation, to the most complicated diseases of the womb. The records of all the many hundreds of thousands of cases as to which advice has been asked are there kept on file by Mrs. Pinkham, and from this vast experience she is able to do more than the family physician for ailing women. Any woman, therefore, is responsible for her own suffering who will not take the trouble to write to Mrs. Pinkham for advice. The testimonials which we are constantly publishing from grateful women establish beyond a doubt the power of **LYDIA E. PINKHAM'S VEGETABLE COMPOUND** to conquer female diseases.

Who Was Brought Home
Last Night.

Funeral of James H. Johnston of East Kibby,
Well Attended.

Accident Injured at the Locomotive Works—Church Notes—
Sick Folks—Visitors
and Visited.

Charles Peltier, the popular Lake Erie & Western engineer, was brought home from New London, O., last night by traveling engineer Porter, and although he is able to get out yet he is in a serious condition.

Last Tuesday, Mr. Peltier was called to take an engine and wrecking crew from Akron over the Northern Ohio branch of the Lake Shore system and en route he was taken with cramps and suffered intense misery, finally reaching a stage of semi-consciousness, and for nearly twenty miles he could not move, although he could hear the fireman talking to him yet he could not answer. The head brakeman was first to discover Charles's condition just as they were pulling into New London. He was removed to a hotel and medical assistance summoned. Examination revealed that his intestines had become knotted, and for ten or twelve hours he was next door to death. Mr. Peltier has nothing but words of praise for the people of New London, and says he received the very best of care, and that he never met a more sociable lot. His present condition makes it impossible to say when Mr. Peltier will be able to report for duty.

The funeral of the late James H. Johnston, was held at Grace M. E. church, this morning, at 10 o'clock and was attended by a large concourse of people. Mr. Johnston was a prominent Mason and an official member of Grace church, and was a widely known much-loved man. Rev. Hagerman, the officiating minister, took for his text words from St. Paul: "Ye are our epistles, written in our hearts, known and read of all men."—II Cor 3:2. Interment was made in Woodlawn cemetery.

Leg Badly Cut

Yesterday while standing on a ladder repairing a belt at the Lima Locomotive Works, Win Jardi, was injured by a fall. His foot slipped from the ladder and he was going to fall. He tried to step on a planing machine nearby but misjudged the distance, and landed against it with such force as to cut a gash in the right leg about two inches long and into the bone.

J. L. Roney, who lives on east Market street, an old employee at the Locomotive Works, is again off duty, having suffered a relapse to his recent illness.

Mrs. John Cushman, of Greenlawn avenue, Mrs. Harper McMillen, of Broadway, and Mrs. John Botkins, of St. Marys, were called to Toledo yesterday by a message announcing the serious illness of their mother.

Will Celebrate Again.

This is the night when the kids let journey forth to greet their neighbor with cabbage heads, corn, or anything they can carry or throw—Hallowe'en. This is the night when imaginations (two legged ones) run riot, but like the Fourth of July, anxious ones began to celebrate several nights in advance. A trip around the side streets of south Lima this morning, showed signs of the fairies and goblins having been abroad last night, and at several places mischief of a destructive nature was noticed. Warrants have been issued for the arrest of four fellows who went a little too far with their fun.

New Babies.

A ten pound boy has arrived at the home of Mr. and Mrs. William Quillan on St. John's avenue, in time to celebrate Hallowe'en.

Mr. and Mrs. J. B. Knowles, of south Jackson street, have a new girl baby to brighten their home.

At Grace Church.

Sunday school at 9 o'clock, followed by preaching by the pastor, W. J. Hagerman, upon the subject of "Joyance and the Bible." At the evening service Mrs. J. Fred Hayner, of Tientsin, China, will occupy the pulpit, talking for her subject, "Conference of 1901." Mrs. Hayner was a worker in China at the time of the Boxer uprising and can tell you of the siege of Peking. She is an exceptionally good speaker, and her talk will be quite

educative.

THE REAL TEST

Of Herpicide is in giving it a Thorough Trial.

There is only one test by which to judge of the efficiency of any article and that is by its ability to do that which it is intended to do. Many hair vipers may look nice and small, but the point is—do they eradicate band-druff and stop falling hair? No, they do not, but Herpicide does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Herpicide stands the "test of use." It is a delightful dressing, clear, pure and free from oil or grease.

AMUSEMENTS.

Monday, "The James boys in Missouri"
Tuesday, "The Price of Honor"
Wednesday, "The Wizard of Oz"

Jesse James and his gang of outlaws who terrorized Missouri, have been the theme of several stage productions, but none of them has had a dramatic worth elaborate stage setting or refined effect of the times. Boys in Missouri, which comes to the Faurot opera house on Monday evening. Other plays built out the varied career of these bandits have been on the blood and thunder order with considerable business introduced, but the present

production which is constructed with much cleverness and no little stage ability and staged with a promptness never seen in these parts before brings to us a good melodramatic play with no features that could offend the most refined taste. The stage is about as worth seeing but the incident used in the play is a story which makes it the most interesting of its kind.

George's road tour in "Pretty" which is soon to begin at Boston will be wonderfully profitable. George leaves the studio in New York to-day.

There is a well known incident in the life of Herbert Spencer, the author of the "Principles of Biology," which is the subject of the play "The Price of Honor."

There are new productions of "The Price of Honor" being built in New York. One of these will be used by the Faurot opera house in London so that the play will be in both instances.

will be as fresh and attractive as it was at the beginning of the metropolitan run.

Mrs. Frank Norris, the widow of the novelist, is attending rehearsals of the dramatization of her husband's story "The Pit."

Rehearsals have developed the fact that in Curtis Jadin, the part he is to play in "The Pit," Wilton Lackaye will have the strongest character he has ever had, and will do the best work he has ever done. Mr. Lackaye's company, numbering 300 people, will include Max Freeman, Mrs. John Pindley, Hale Hamilton, Florence Smythe and Jane Oaker. The first performance is scheduled for November 4 in Hartford.

The great department store scene in "The Price of Honor" which is to be at the Faurot opera house on next Thursday night is an up-to-date bit of realism which has created a sensation. We are shown the broad aisles and heavily stocked tables and counters of a gigantic commercial establishment—crowds of eager shoppers hurrying to and fro the self-important floorwalkers strut proudly up and down their little domains, and many types to be found in a cosmopolitan city pass on and off the stage. There "The Price of Honor" has its first act revealed. While all is apparently serene in the great store the first steps in a tragedy are taken—at the fall of the curtain a good woman has been wronged, a bad woman shielded from harm, a scheming designing villain strikes his first blow while an honest man realizes the fact that in store for him to secure justice for the oppressed. The second act is a scene in a city street where a man is shot and the fourth to the end of the play.

A play of pathos is the essential feature of every big production in the metropolitan and "The Wizard of Oz" which comes to the Faurot opera house on next Friday evening is said to abound in touching beauty. In addition to a handsome chorus of thirty-four of comely and attractive girls are a dozen favorite principals noted for beauty and talent.

An absolutely new stage creation, however, is the most anticipated feature of "The Wizard of Oz." This is the Scarecrow who literally evoked a storm of enthusiasm during the long run of the play in New York. The curtain will rise at 8 o'clock.

The secret of the popularity of "The Wizard of Oz" is, that unlike most classic plays it is not above the heads of the average audience. The story of the play is intensely interesting, the language is simple but forcible, and the play goes with a swing that holds the close attention of the audience from beginning to end. F. R. Hallam's great revival of this famous play will be the attraction, at the Faurot opera house at an early date.

Aubrey Boucicault began his tour in "Captain Charlie" a four act play, by Theodore Burt Sayre last Monday (Oct. 26) at Springfield, Mass. Mr. Boucicault was credited with having made a personal hit in a strong drama.

Joseph Hart and Carrie de Mar were tendered a reception at the conclusion of their recent engagement with "Foxy Grandpa" in St. Louis.

Girls will be Girls in which Al Leach and the Three Rosebuds are starring is to begin its New York run early in January at the Fourteenth street theatre.

Joseph R. Grismer's most recent

lous pose "One night," said he, "when the scene was about half through, I felt an almost uncontrollable desire to sneeze. The very thought of such a calamity filled me with horror and I resolved not to give way to the temptation. I summoned all my will power and tried to bring a little Christian Science to bear on the situation, at the same time holding onto those twitching muscles like grim death to a grasshopper. Those seven or eight minutes before I was expected to come to life seemed like a thousand years. The tears ran down my cheeks and the prickling champagne-like sensations spread from my nose to my head and ran down my neck like a dose of electricity. All this time the sneeze was gathering accumulated force, and, finally, in spite of me, it burst out like the charge of a gatling gun. Then I heard a roar from the audience and knew that I had been able to restrain the sneeze until just the right minute when Dorothy was supposed to bring me to life by means of her magic ring. My sudden awakening made a hit that night, but I would not go through such an experience again for any amount of glory."

A few years ago novel publishers deemed themselves fortunate in securing a Bertha M. Clay manuscript. For a score of years this gifted writer has turned out from two to four romances a year. Prior to writing her

money maker, Sky Farm, is doing a large business in the west.

One of the most striking features in Aubrey Boucicault's new play "Captain Charlie" is a sword contest in the last act. This contest is not a mere crossing of blades, but a duel which lasts three minutes, and in which Captain Charlie's weapon is broken.

The Scarecrow in "The Wizard of Oz" has to stand motionless for eighteen minutes at a stretch perched upon a pole in a corn field.

"Tin Man" and "Scarecrow" in "The Wizard of Oz."

while a scene is taking place in the foreground the eyes of the audience are constantly upon him and he must not move a muscle of his face or body or the illusion would be destroyed. His outstretched arms are supported by a cross piece nailed to the pole and during the first performance of "The Wizard of Oz" both of "The Scarecrow's" arms went sound asleep and when Dorothy came to take him from the pole, he really needed her support until he could restore the circulation.

The other day the "Scarecrow" returned to the stage of this theatre.

greatest success, Dora Thorne which enjoyed the unprecedented sale of one million copies the first year, has been translated into nine languages and altogether the greatest selling novel of any love romance ever published. Charlotte M. Brame wrote her own name beneath the title then appeared the simple line by the author of Dora Thorne. This was deemed all that was necessary to boom the book. Miss Brame also used the pen name Bertha M. Clay, her own initials reversed. Mr. McCormick has successfully dramatized Dora Thorne and R. L. Crescy's original production will be seen here at the Faurot opera house at an early date.

The dramatized version contains all the charm, brilliancy, pathos of the book with an added vein of comedy. The presenting company is headed by Miss Helene Carral, a beautiful young woman, of great emotional power who has made a decided hit in the title.

As the scenic production carried by the Whitney Opera company on tour this season is the original production of "When Johnny Comes Marching Home" that was used during the New York and Chicago engagements, two sixty foot baggage cars are required for the transportation of the scenery and many electrical effects which are in evidence at every performance.

Lima music lovers hail with delight the announcement that Anna Bussert will give a song recital, assisted by Grace Cover in Faurot opera house, on the evening of December 15th. As Miss Bussert was formerly a Delfino girl and has sung in Lima on several occasions since studying under the famous Sarago, of New York, she needs no introduction. The very announcement will be sufficient to fill the theatre. Miss Cover, who will assist Miss Bussert is an Ottawa, O., girl and a graduate of the Boston Conservatory. In her, Miss Bussert has a capable, talented assistant. Further announcement of this

Some years ago Adrian C. Anson for many years Captain of the Chicago White Stockings organized a baseball team composed of men representing each of the big teams in the Major League and made a tour of the world with his Base-baller known as the All Americans. This grew some years later to a stage expression of "All Star Cast" when Rose Coghlan, with such associations as Elita Proctor, Orlin G. Stoddard, Louis Mann, Cora Turner, Phillett Paget,

Isabelle D'Armond, in "Wizard of Oz."

Chas. Ratcliffe, Harry Lacy, all appeared in the "Sporting Duchess" and afterward when the "Rivals" and other great revivals have been given with well known favorites in each of the several roles.

But Messrs. Nixon & Zimmerman will introduce a novelty in their forthcoming elaborate revival of "Miss Bob White," which to the knowledge of the writer, has never been detailed before, and that is an All Operatic Chorus. That may mean nothing, or seem the coining of a new word or phrase, but it is very significant. The chorus which "Miss Bob White" offers is unique and in its way entirely different from anything of its kind ever presented.

Ever since the original production

of the piece, some two years ago, Wilford Spenser, the author has been on the alert for what he would term an ideal company and so as each opera or musical comedy would come along he would jot down the name or names of those he would like to have. True, he could not see them all but in most instances he was successful to a marked degree a fact as now admitted, and the chorus is a corker. They have the pick and cream of the following operatic and musical comedy companies—King Dodo, The Jewel of Asia, The Show Girl, The Burgomaster, The Knickerbocker Girl, Dolly Varden, The Silver Slipper, When Johnny Comes Marching Home, Beauty and the Beast, The Marguerite Silva opera, The Strollers, The Toreador, The Francis Wilson Opera company, The Country Girl, The Chinese Honey-moon, The Wild Rose, The Runaways and Sally in Our Alley. So, if for no other reason than for a collection of the beauty and voice of each of the foregoing this aggregation is an interesting study but that is only a minor detail. The principals too are a source of greatest surprise.

"The Wizard of Oz" which will soon be here, is one of those phenomenal stage successes that creates a storm of discussion as to the reason for its marvelous popularity. The reason for the success of "The Wizard of Oz" is easy to ascertain. No extravaganza of the past decade no musical comedy and no comic opera has possessed in so marked degree the refreshing and ever welcome quality of absolute originality. "The Wizard of Oz" abounds in so many unique scenic surprises and so many genuine novelties that playgoers everywhere welcome it as an oasis in a desert of mediocrity.

The Course in History. Farragut was fighting the battle of Mobile Bay.

"It's no use," cried the Confederates, "we must have aboard at least 1,000 original men who looked him to the mast."

Seeing the odds were so overwhelming, they had no alternative but to surrender.

Jefferson had hitched his steed to the fence before taking the oath. "You see," he explained to his intimates, "I knew it would create a lot of sympathy if my horse was left at the post."

Thus, with rare tact, did he cater to the people.—New York Sun.

THE JOKE OF A SCIENTIST

When Prof. Joseph Le Conte was taking a scientific excursion with Agassiz to the Marquesas and thence into the Dry Tortugas he ventured on a little pleasantry to beguile the time, says the Youth's Companion. The day after their arrival Prof. Le Conte was sent to examine a little island about 10 miles away and having done it, he remained there, he claimed all the next day. The water was about 20 feet deep, a splendid place for a dive.

Le Conte stripped and plunged overboard and amused himself by plucking sponges and corals from the bottom. While he was thus engaged an old time naturalist who had joined the party something to Agassiz's disgust came paddling round the ship in a little boat.

Le Conte to the delight of the sailors looking on, took hold of the keel behind, lay on his back with his legs under the boat, and his head hidden by the stern, and began to swim back ward.

The boat mysteriously moved the wrong way, and the harder the old gentleman paddled the more it resisted him. Still it moved backward.

He was alarmed. Some devilish was evidently running away with him. He peered over the gunwale, but saw nothing. Now he paddled frantically, his strength increased by terror, and still the boat slipped back. Finally the onlooking sailors laughed so hard that the joke could be carried on no longer, and Le Conte fearful of an avenging paddle on his head, swam swiftly away.

Many a Slip

"And so you and Jack are to be married?"

"Who-Jack Handy? Indeed we are not. The very idea!"

"Why he told me yesterday you and he were engaged."

"Well, so we are—but that's all!" Kansas City Journal.

In some foreign countries, there comes the rare but horrible tale of people starving to death. From every part of our country, there comes the common and more horrible tale of persons dying from eating too much. There's the difference.

No one who is acquainted with its good qualities can be surprised at the great popularity of Chamberlain's Cough Remedy. It not only cures colds and grip effectually and permanently, but prevents these diseases from resulting in pneumonia. It is also a certain cure for croup. Whooping cough is not dangerous when this remedy is given. It contains no opium or other harmful substance, and may be given as confidently to a baby as to an adult. It is also pleasant to take. When all of these facts are taken into consideration, it is not surprising that people in foreign lands, as well as at home, esteem this remedy very highly and very few are willing to take any other after having once used it. Motherhood

MOTHERHOOD is the reward nature bestows upon healthy womanhood. Women whose vitality has been sapped by disease cannot safely give birth to children. In pregnancy and childbirth the weakness of the mother is revealed in the pain and agony she suffers. This great natural process of pregnancy is complicated by the time of inflammation and the mother gives time and strength to the child's organs which nature intended for the mother and agony she suffers. Pregnancy is hampered by weak circulation and poor carriage, which last so many women reach a stage where they are unable to carry a child to term. It is a sad condition when a woman of childbearing age is unable to carry a child to term. The cause of this is often a weak circulation, which is the result of a mother's health being sapped during the months of pregnancy, the mother is able to give the child the best start in life, and the child is born healthy and strong. With these facts presented to you, you can see why a mother should be satisfied with a remedy that will give her a strong, healthy child. Every mother should be able to give her child the best start in life, and this is what this valuable medicine does. Wine of Cardui cures every ailment of the mother.

Wine of Cardui cures every ailment of the mother.

I am the mother of seven children and while pregnant, and with the first six suffered untold misery until they were born. Once with the seventh I was taken to a hospital, and I was told that I was in a dangerous condition. I used the remainder of the bottle of Wine of Cardui, and the birth of the child was without incident. I was able to carry the child to term, and the child was born healthy and strong. I am now 29 years old. MRS. V. ELIZABETH STAFFORD.

Lima division is meeting regularly on every Thursday evening in their new quarters in Wheeler hall, and under the energetic leadership of Captain Wells, is making rapid progress in their drills. Any member who thinks that he has plenty of time to prepare himself between now and August 22d next, when the encampment upon the exposition grounds at St. Louis begins, needs to read his Bee Hive for this month, and note the preparations that are being made by divisions all over the country for this great event, and then get a bustle on himself. Lima Division is at the head of the list numerically, and will remain there, but where it will stand in discipline and efficiency is yet to be demonstrated in competition with the crack divisions from San Francisco, Akron, Toledo, Milwaukee, Kalama, Pueblo, Pittsburg, Cleveland and other places, rests entirely with the members.

Lima Tent.

The members of Lima tent No. 142 were so pleased with the entertainment given last week, that at their review on Tuesday evening, the committee on entertainment was instructed to prepare a program for one night in each month. The next will occur on the evening of Nov. 17th or 24th, of which due notice will be given, and invitations issued. This undoubtedly will be a L. O. T. M. social. If you do not know what that means, ask the L. O. T. M.

ORDER OF RED CROSS.

Independent Commandery No. 14 comes to the front and announces to the members of the order that it is again pleasantly located in Donze hall on Main street, after an absence of a few weeks during which time meetings were held in the Gazette hall, but satisfaction was made plain by the expression of our members at the meeting last evening when so much praise was extended to our trustees for their work and influence with Mr. Donze to secure the lease of the hall for at least one year. This hall was the birthplace of Independent Commandery which is one of the most progressive commanderies of the O. R. C. in Ohio, and it will meet hereafter on Wednesday evening of each week. It is expected that a large class of new members will be initiated into the order next Wednesday evening.

A committee meeting was held to complete arrangements for an entertainment to be given Wednesday evening, Nov. 11, 1933. A very pleasant program was arranged and the amusements of the evening will be opened with an exhibition drill by the degree team of Independent Commandery, it being their first appearance in public. After the entertainment is through, refreshments will be served and it is hoped that all members of the O. R. C. and their friends will be present and enjoy a pleasant evening. Remember the date, November 11, 1933.

SOLICITOR IS SPONSOR.

The present high tax rate in this city is due to a floating indebtedness of \$54,000, left by a republican council and which no one can explain, and the enormous increase in the cost of administering the city government under the municipal code, made into law by the last republican legislature.

This floating indebtedness, or rather shortage which a republican council had created in the various funds, was the legacy it left.

CLARKE MAKES HIS

Sworn Statement of All the Money He Has Spent in the Campaign

Or That With His Knowledge Has Been Spent, or Contributed Toward Securing His Election to the U. S. Senate, or Toward Electing Members of Legislature.

John H. Clarke, in pursuance of the promise made by him early in the campaign, that he would publish a sworn statement of his expenses on the Saturday before election, regardless of the action taken by Senator Hanna, through Chairman Dick, in refusing to publish a like statement, has made public the following affidavit:

State of Ohio, Cuyahoga County, S. S. John H. Clarke, being duly sworn according to law, says that the following is a full and true statement of all of the money that he has in any manner, spent or contributed, or that with his knowledge has been spent or contributed, toward securing his election to the United States senate, or toward securing the election of members of the general assembly of Ohio, favorable to his election to the senate at the election to be held on November 3rd, 1903. Affiant also says that

THOUSAND DOLLARS FOR EVERY MONTH. That Is the Additional Cost of Running the City Government Under the New Republican Municipal-Cox-Hanna Code.

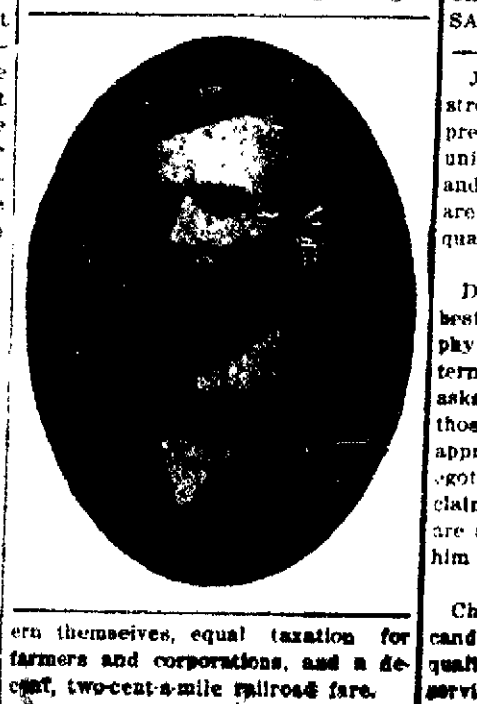

The new municipal code may be a good thing to perpetuate the dictatorship of George B. Cox, out as for the city of Lima, it has already developed into a very expensive luxury. The increase in the salary list which will be drawn upon the general fund alone reaches nearly \$10,000.00 a year, and the total increase in the expenses of the city, brought about by the Cox code, is estimated to be between \$25,000.00 and \$30,000.00.

Following is a statement of the salaries that will be drawn from the general fund each month:		Total for month	\$ 1,669.84
		Total for one year	\$19,918.08
		Same departments last year	\$10,260.08
Mayor	\$ 125.00	Increase	\$ 9,658.00
City Auditor	125.00	In addition to the above increase,	
City Solicitor	150.00	there will be increases in the salaries	
Treasurer	75.00	of almost every other department	
Deputy auditor	50.00	of the city government. In the street	
Solicitor's clerk	40.00	department, there are now four street	
Mayor's clerk	40.00	superintendents drawing salaries of	
Chief engineer	135.00	\$3 per day each for duties that, under	
Assistant engineer	\$1.00	the old regime, were performed by	
Assistant engineer	81.00	one man, this change making an additional

Man Heffner	54.00	of \$9 a day. Another new expense

be judged from the fact that his father is the candidate for commissioner on the republican ticket, and in the face of protests from members of the sinking fund board, that the taking care of this shortage by the board would be in excess of their legal authority. Solicitor Bentley, the only authorized advisor of every city department, told them to provide for it by increasing the levy. This legacy—the republican shortage and the thousand dollars a month more it costs to run the city under the code regulations, are the sole causes for the present exorbitant tax rate, specimens of which are published on the ninth page of this issue of the Times-Democrat.

NO BRIBE ACCEPTER.

There is undisputable proof that Hon. John W. Mangus was approached with bribes to do the bidding of Hanna and his tools, while in the legislature, and that he scornfully refused them. This alone, without the adjunct of the local postoffice fight, would be sufficient incentive for the malicious, dishonest fight now being made against him. Hanna wants no legislators who are not tools, subservient to him and his gang of freebooters.

FAIR SAMPLE OF THE WAYS

Made Use of by Local Republican Managers to Deceive Voters.

That which is called political cunning by republican managers, and which they always practice during the closing hours of a campaign in the hope of sneaking out a victory, is beginning to come to the surface in this city, despite their efforts to conceal their rookeries until too late for answer or refutation. Honest John W. Manges, the democratic candidate for legislature seems to be the target for their greatest underhanded shooting, and beginning with Sunday, they expect to hand him a boomerang, an infernal machine which will cause the laboring men of this city to cast their votes for Belch, the creature of Hanna and corporations.

Sunday and Monday, the shops and other places where gentlemen are employed are to be flooded with the following circular, another document which the local republican organ has not had the manhood to publish through its own columns because it believed it would cause it to lose whatever, if any effect it might have.

The Circular. "Sec. 5441 (PROPERTY EXEMPT FROM LEVY.) Husband and wife living together, a widower living with an unmarried daughter or minor son, every widow and every unmarried female, having in good faith the care, maintenance and custody of any minor child or children of a deceased relative, resident of Ohio, and not the owner of a homestead, may, in lieu thereof, hold exempt from levy and sale, real or personal property to be selected by such person, his agent or attorney, at any time before sale, not exceeding five hundred (\$500) dollars in value, in addition to the amount of chattel property otherwise by law exempted. Provided, that such selection and exemption shall not be made by the debtor, his agent or attorney, or allowed to the debtor from any money, salary or wages due him from any person, partnership or corporation whatever, against any claim, debt or demand for necessities furnished to such debtor after the passage of this act, except to the extent of NINETY per centum of such money, salary or wages."

Passed April 26th, 1898. The above section of the Revised Statutes of Ohio is now the law and has been since April 26th, 1898, covering the exemption of wages to laboring men having families.

At the session of legislature in 1902, Mr. John W. Manges, the representative from Allen county, introduced house bill No. 716, to amend the above section so as to read as follows:

"Sec. 5441. Husband and wife living together, a widower living with an unmarried daughter or minor son, every widow and every unmarried female, having in good faith the care, maintenance and custody of any minor child or children of a deceased relative, resident of Ohio, and not the owner of a homestead, may, in lieu thereof, hold exempt from levy and sale, real or personal property to be selected by such person, his agent or attorney, at any time before sale, not exceeding five hundred (\$500) dollars in value, in addition to the amount of chattel property otherwise by law exempted. Provided, that such selection and exemption shall be made by the debtor his agent or attorney, or allowed to the debtor from any money, salary or wages due him from any person, partnership or corporation whatever, against any claim, debt or demand for necessities furnished to such debtor after the passage of this act, except to the extent of SEVENTY-FIVE per centum of such money, salary or wages."

"The republican legislature defeated this proposed amendment, and saved the laboring men from having 25 per cent of their wages taken in attachment, instead of 10 per cent as the law now provides."

THE SUM AND SUBSTANCE OF THE ABOVE CIRCULAR IS THAT TWENTY-FIVE PERCENT OF THE WAGES OF A MAN OF FAMILY CAN BE GARNISHED INSTEAD OF 10 PER CENT. IT IS TRUE THAT MR. MANGES DID INTRODUCE AN AMENDMENT TO THAT EFFECT. THE MEASURE CAME TO HIM FROM THE MERCHANTS OF ALLEN COUNTY. A GREAT MANY OF WHOM SIGNED THE PETITION FOR ITS PASSAGE MR. MANGES DID WITH THE BILL JUST WHAT IS DONE WITH ALL OTHER BILLS. HE HAD IT PRESENTED TO THE HOUSE, READ, AND THEN IT TOOK ITS REGULAR COURSE, THAT OF REFERENCE, TO A COMMITTEE. HAD THE LABORING MEN OF THIS CITY SENT MR. MANGES A MEASURE PROPERLY PETITIONED FOR, ASKING THAT THE GARNISHEE LAW IN ITS ENTIRETY BE REPEALED, HE WOULD HAVE FOLLOWED LEGISLATIVE COURTESY AND INTRODUCED IT. THEREAFTER LETTING IT TAKE ITS COURSE AS PROVIDED BY THE HOUSE RULES.

HOUSE BILL 716, AS STATED, WENT TO ITS PROPER COMMITTEE. THAT COMMITTEE WAS COMPOSED OF DEMOCRATS AND REPUBLICANS ALIKE, AND IT NEVER REPORTED THE BILL BACK TO THE HOUSE. WHY, THE COMMITTEE ALONE KNOWS. AT ANY RATE THE BILL WAS KILLED IN THE COMMITTEE ROOM, AND A REPUBLICAN LEGISLATURE NEVER HAD AN OPPORTUNITY TO DEFEAT IT BY VOTING ON IT.

THE LAST CLAUSE OF THE ABOVE CIRCULAR IS WORTHY OF ESPECIAL ATTENTION BY THE LABORING MEN OF THIS CITY. LET'S REPRODUCE IT, SO IT WILL BE RIGHT UNDER THE EYE.

"The republican legislature defeated this proposed amendment, and saved the laboring men from having 25 per cent of their wages taken in attachment, instead of 10 per cent as the law now provides."

WAS THERE EVER A MEANER STAB AT THE HONESTY OF THE LABORING MASSES THAN CONTAINED IN THAT DECLARATION A REPUBLICAN LEGISLATURE SAVED THE LABORING MEN—ALL LABORING MEN—THE DIFFERENCE BETWEEN 25 AND 10 PER CENT. THE INFERENCE THEREIN IS THAT ALL LABORING MEN ARE DISHONEST, AND THAT THEY LIE AWAKE NIGHTS TO BEAT THEIR CREDITORS. THE TIMES-DEMOCRAT HAS A DIFFERENT OPINION OF THE LABORING MEN OF LIMA. AS A WHOLE IT BELIEVES THEM THOROUGHLY UPRIGHT AND HONEST IN THEIR DEALINGS WITH FELLOW MEN.

THE SMALL NUMBER OF GARNISHEE PROCESSES ISSUED EVERY YEAR IN THIS CITY OF THIRTY THOUSAND SOULS PROVES IT, AND THE LOSS OF THAT NUMBER TO ANY PARTY BECAUSE OF BILL NO. 716, WHICH STILL RESTS WITH THE COMMITTEE TO WHICH IT WAS REFERRED WILL CUT NO FIGURE WITH THE RESULT IN THIS CAMPAIGN. OR WITH THE HONESTY AND MANHOOD OF THE GREAT MAJORITY OF LABORING MEN WHO PAY THEIR BILLS WITHOUT PROCESS OF LAW, AND WHO ARE NOT INTERESTED IN EITHER THE PASSAGE OR DEFEAT OF A GARNISHEE LAW.

Judge Cunningham and Judge Armstrong need no encomiums from the press. Their record has been one of unimpeachable honesty on the bench, and as distinguished jurists; and they are good fellows in addition to those qualities.

Dr. Andrew Bice, one of the best educated and most successful physicians in the county, after one term of eminently satisfactory work, asks the suffrage of democrats, and those of different political faith who appreciate merit. The doctor is not egotistical enough to make these claims. His friends by the multitude are doing it for him, and will vote for him for coroner.

Charles E. Craig, the democratic candidate for surveyor, is thoroughly qualified by education, and practical service to satisfactorily conduct the

in its semi-weekly edition, and in its daily issue, makes this prising statement: "Allen county never had a republican sheriff, and this is a good thing to elect one." This bit of information will be of interest to the sons of the late Wm. Crossley who was elected sheriff in 1873, a republican, and served two terms of distinction.

Another which was taken at Gottfried's divorce case today, was continued from last Saturday, but Judge Cunningham concluded the evidence was not sufficient to make his grounds more worthy.

For Will Berry to Put
Behind Him.Entrusted With the Settlem-
ent of Bills He Robbed
His EmployerAccording to a Complaint Filed in
Police Court Today by J.
F. Settlement, the
Milkman.

Will Berry, the 23 year old lad liv-
ing on west High street, has plunged
himself into serious trouble, and the
police have taken the first steps to
arrest him. Young Berry has been
employed by J. F. Settlement, as a
driver of his milk wagon, but it
seems that the salary did not come in
amounts large enough to bring his
needs up to the amount desired, and
he resorted to criminal measures to
get more of it in a single lump.

Mr. Settlement has been buying his
milk from several farmers near town,
and then bringing it to the city to
supply his trade. It was his custom
to pay his own milk bills at regular
intervals, and he used the wagon for
that purpose. This morning he pre-
pared to make the usual rounds, but
stated that young Berry asked to be
permitted to collect the milk as usual
and pay the bills.

Having no reason to mistrust him,
Mr. Settlement gave his consent, furn-
ished a list of those to whom he was
indebted, together with the amounts,
and gave Berry \$36 in money. That
was the last seen of him, and several
hours later, the wagon was found
hitched to a fence about two miles
west of town.

The police were notified and a de-
scription of the boy has been sent out
in the hope that he may be appre-

leave the state, if such was his in-
tention.

CASTLE HAS
A GOOD IDEAThat Under Present System of Account-

Washington, Oct. 31.—Various rec-
ommendations to cure defects in the
accounting methods under which
abuses in the postal service have oc-
curred are made by Henry A. Castle,
auditor for the post office department
in his annual report to the secretary
of the treasury and postmaster gen-
eral. He said that the facts pointed
out make infinitely greater postal

abuses than those already disclosed
not only possible but safe. The re-
port says that the aggregate transac-
tion of the postal service during the
fiscal year were \$1,026,731,408, as fol-
lows:

Revenues \$134,224,443; expenditures

WARNING

Issued to Parents From the
Police Court.

Complaints of Destruction of Prop-
erty Is Likely to Lead to
Arrests.

The youth of Lima has shown a de-
cided impatience for the pleasure and
fun which comes with Halloween and
they began two nights ago to make
life miserable for residents in all
parts of the city. Wednesday night
and last night bands of young mar-
auders piled up a lot of mischief, and
aside from what may be termed inno-
cent and legitimate fun, there was no
end of malicious destruction of prop-
erty.

Numerous complaints came to the
police and some of the depredations
committed were flagrant violations of
the law. Wooden steps were carried
away or broken up, board side walks
removed, out door closets overturned,
gates taken from the hinges; and one
well kept lawn is minus several yards
of sod which was torn from the ter-
race and scattered in the street.

Several extra men were put on the
force today in citizen's clothes and
they will keep an eye open for any
possible offenders tonight. The mayor
has promised to make an example of
any boy brought before him, and it
will be well for parents to see that
their boys are at home.

A BEAUTY

Is the New Ambulance of
Bennett's.

No city in the state of Ohio, can
boast of a more modern, more con-
venient or prettier ambulance than
the one which arrived over the Chic-
ago and Erie, this morning, for the Ben-
nett undertaking establishment. It is
of the Red Cross pattern, and has all
modern equipment in the way of medi-
cine case, bandage rack, balancing
spring couch, electric head light,
electric search light, and is being fit-
ted up with electric inside lights. A
very pretty triple-action, gong adorns
the front end of the carriage; both
ends and both sides have artistic win-
dows, and on each side are two trap-
door ventilators. In fact, the wagon
is all that could be contrived for ease
and comfort to unfortunates, who may
have need of such conveyance. The
color effects are of a dark green and
maroon, highly polished, and it is re-
ally a thing of beauty.

PLEASANT

Dreams Disturbed by a
Surprise Party.

Sergeant Bacome had retired for
the night, and was dreaming of
handing on justice on the bench,
when he was aroused by the violent
ringing of the door bell. He respon-
ded in his night-dress suit, and was im-
mediately surrounded by a score of
neighbors and friends, who had been
quietly let into the family secret that
the "Judge" had attained his 42nd
birthday.

The surprise was complete, but
Sergeant Bacome was equal to the
occasion, and entered into the spirit
of it with his well-known good humor
and hospitality.

What
Is..

Wooltex

BRIEFLY, a new mode of constructing coats, skirts
and tailor-made suits. It took nineteen years to
envolve, mature and crystallize. When perfected, its
success was instantaneous, for it was endorsed by the
most discriminating of modish women.

Hundreds of thousands of these now know that
WOOLTEX is the sign of purity and worth in tailor-
made garments. It is the distinguishing term for coats
and suits of absolutely correct style, built of cloths and
linings into which there enters not a trace of that
adulteration so rampant in commercialism.

And the styles—inspired by Paris and modified by
the best American designers—possess snap and dash
which distinguish them from ordinary ready mades.

If this store were not certain that WOOLTEX are
the most dependable garments, this store would not endorse them.

It does, and you are invited to inspect and—differ with us if you conscientiously can.
